

STATE OF ARKANSAS
EXECUTIVE DEPARTMENT

PROCLAMATION

TO ALL TO WHOM THESE PRESENTS COME – GREETINGS:

WHEREAS: As many as 15 million Americans have food allergies, with nearly 6 million of those being children under the age of 18; and

WHEREAS: Research shows that the prevalence of food allergy is increasing among children; and

WHEREAS: Eight foods cause the majority of all food allergy reactions in the U.S.: shellfish, fish, milk, eggs, tree nuts, peanuts, soy, and wheat. Symptoms of a food-allergic reaction can include hives, vomiting, diarrhea, respiratory distress, and swelling of the throat; and

WHEREAS: According to the Centers for Disease Control and Prevention, food allergy results in more than 200,000 ambulatory care visits a year involving children under 18. Reactions typically occur when an individual unknowingly eats a food containing an ingredient to which they are allergic; and

WHEREAS: Food Allergy Research and Education (FARE) is a national, nonprofit organization dedicated to improving the quality of life and the health of individuals with food allergies, and to provide hope through the promise of new treatments;
